## While Our Bargaining Team Moves on Some Issues— Management Offers Peanuts on Others

While our bargaining team gained contract improvements on some issues, management offered us peanuts on others. While lunch periods were clarified, management offered us 1% wage increases.

Some of our other proposals did not even get a definite response such as our improved bilingual pay from \$50 to \$100. Our Employer-Paid health coverage proposal for benefits was given back to

us with a subsidy for family coverage.

We were told Management has one bucket of money.

**Bucket of Money = Status Quo**

This means No Change! "We *can* make change," says Marie Michaelsen, Bargaining Team member. "But only if we are UNITED. Support the Bargaining Team!"

**You decide—are we worth more than peanuts?**

***"If you think we are worth more than what management is offering, attend our General Membership meeting to find out our plan. All ideas are welcome," says Mercedes Luna, Bargaining Team member.***
